

FIRE & SAFETY SYSTEM

FORMATIC PROJECTS PVT. LTD.

About Us

With a focus on safety, Formatic Projects India Pvt. Ltd. stands for engineering excellence, innovation, and reliability. Formatic Projects India Pvt. Ltd. a turnkey project solution provider in Fire & Safety System Industry.

Vision

Our vision puts into practice our belief that the highest performance and highest ethical standards can drive our profitable growth while addressing stakeholders' requirements.

Mission

To provide products, services and solutions of the highest quality and deliver more value to our customers that earns their respect and loyalty.

Values

Our Corporate Principles embody the values that determine our behaviour and form the foundation of our success.

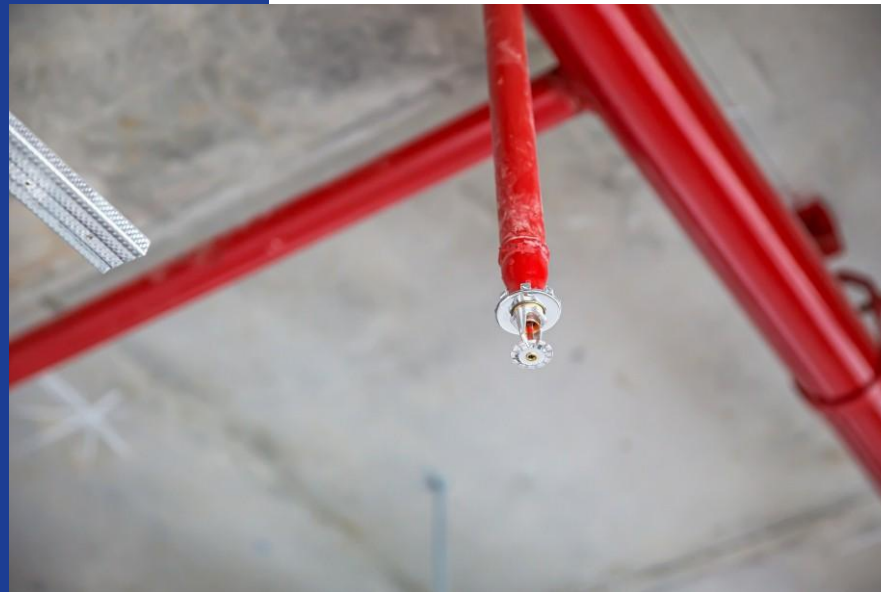

Fire Hydrant System

Hydrant is in fire (vertical riser and courtyard line). Fire hydrant system is a water supply with a sufficient pressure and flow delivered through pipes throughout a building to strategically located network of valves for fire-fighting purposes.

Sprinkler System

A fire sprinkler system is an active fire protection method, consisting of a water supply system, providing adequate pressure and flow rate to a water distribution piping system, onto which fire sprinklers are connected.

Pump Room

A fire pump is a part of fire sprinkler, internal and external hydrant system's water supply and can be powered by electric, diesel pump. The pump intake is connected to independent fire pump. The pump provides water flow at a higher pressure to the sprinkler system, risers and hose stand pipes.

Detection system and alarm system

A fire alarm system is basically a network of initiating devices and notification devices connected to a fire alarm control panel. This is used to alert people of an emergency in a building.

Fire Extinguisher

A fire extinguisher is a device which can be used to control a fire. Fire extinguisher can be help remove the fire and may stop it from burning. Depending on the size some fire extinguishers can be carried around and operated by hand. There are different kinds of fire extinguishers: ABC, DCP, CO₂, Water CO₂, mechanical foam, clean agent

Ware House Construction

We are proposing warehousing solution to your estimated organization.

- Installation of a fully equipped warehouse with a different facility.
- Warehouse with Pharma-grade Specification.
- All safety aspects will be considered.
